Date: November 30th
Attendees: Emmanuel, Yesenia, Shichang, Wail
Notes:
Team should focus on one main task for the day due to the upcoming presentation.
Yesenia:

- Final presentation
- Demo preparation
- Create a script for the full group by tonight.
- Run through the presentation to ensure timing.
- Prepare the router setup and demo.

The group will:

- Run the demo today.
- Practice tonight individually.
- Meet tomorrow to rehearse 1–2 full presentation runs.

Many tests are failing (11 failed out of 122) due to recent updates.

Wail:

- Will update the rest of the project with the new university implementation.
- Will help finish up the last minute details

Emmanuel:

- Fix failing tests in **SystemManagerTester**.
- Update only files with failure (marked with red X).
- Push changes and create a PR when completed.

Shichang:

- additional testing tasks since some testers are outdated

Will meet tomorrow (Monday) @ 12pm!

The presentation will be tomorrow!

Have everything done by class time!
